

GATEWAY TO BRAZIL

CONNECTING BRAZIL TO THE REST OF THE WORLD THROUGH OUR GLOBAL CABLE SYSTEMS

Brazil presents a huge growth opportunity for all global businesses looking to expand their operations and digital presence based on its demographic factors. Tapping into the 5th largest country in population and 9th largest in economy of the world, requires delivery of exceptional services backed by fast and secure connectivity.

Tata Communications' capacity on the Seabras-1 cable system provides reliable service between Brazil and the rest of the world enabling you to become truly digital across markets and segments with best-in-class infrastructure.

- **Connecting Brazil to North America, Europe, India, APAC, Middle East and beyond...**
 - Fully integrated to Tata Communications round-the world platform
 - Bypassing the highly-congested New York metropolitan area
 - Both Seabras-1 and Tata Communications privately-owned transatlantic diverse cable (TGN-A) interconnect within Wall Cable Landing Station
- **Connecting financial hubs of three continents**
 - Get direct connectivity between Sao Paulo, New York, London and Singapore
 - Reduced Distance & Hops delivering speed benefits on Seabras-1 in comparison to other non-direct cable systems
- **Resilient cable design**
 - Seabras-1 avoids natural disaster-prone areas of Florida and has underground terrestrial backhaul in Brazil delivering peace of mind
